

G-SIM expert Training

“The perfect addition to your GEUTEBRÜCK video Management Solution”

Description:

G-SIM is our flexible, scalable management Solution for your security infrastructure, process control systems and also for your facility management. The G-SIM training gives you the ability to configure a G-SIM server, including its different consoles to use the integrated management systems and analysis elements.

This training is intended for:

GEUTEBRÜCK Installer, partner and all employees who are involved in the commissioning, administration, service and support as well as in the use of G-SIM.

Recommended requirements:

Prior participation in the G-SIM Training. Basic knowledge in network technology and video compression. Safe handling of Microsoft operating systems.

Training Content:

- Create your own buttons (Custom Buttons)
- Map objects on the maps (eg light or barrier control)
- Show SNMP alerts on the map
- Query SQL Database
- Synchronize users through the Active Directory
- G-SIM Enterprise Server
