GEUTEBRÜCK
Excellence in Video Security

Process-oriented, expert in logistics and organizational consulting for

- Production logistics
- Internal logistics and material flow
- Warehousing and contract logistics
- Transport management
- Special: hospital logistics

Since 1998. Offices in Munich and Istanbul, internationally active. Service provider for all industries.

GEUTEBRÜCK partner in the area of process visualization and supply chain security.

The benefits for our customers

- Specific process knowledge in a wide range of industries
- Proven expertise in supply chain management
- Material flow improvements through process visualization
- Potential analysis in internal logistics – regardless of possible investment
- Complete implementation: total solution instead, not just hardware procurement
- ROI calculation of investment in video technology
- Process visualization reduces costs and increases safety and quality
